Flash series. These cards make for a great supplemental study aid. The best feature, in my opinion, is the "scenario" questions. These are like mini-fact patterns designed to get you thinking about one particular issue. I've found these to help get my mind around particular topics in a format conducive to an essay style exam (which all of my instructors use). I do wish that the cards had some more "concept w/definition" cards (where one side gives a word, concept, or issue, and the answer side has a rote definition), but it's not a major issue. I also do think that in this particular series (CivPro) there was a bit too much repetition. Honestly, I believe they could have pared it down to one box if they tried hard, but maybe having that repetition is useful to some. 2 of 2 people found the following review helpful. Good Study Resource By Edward J. Barton These flash cards are extremely useful for going through the in and out of procedure. Lots of hypos and covers the landscape of the material well. Occasional humor keeps it lively. Expensive but worth it. 0 of 0 people found the following review helpful. Five Stars By Rod Gilleo Great product and seller was very accommodating when the postal service lost the package. Would highly recommend.
