Jesse Choper, Richard Fallon Jr, Yale Kamisar, Steven Shiffrin, Michael Dorf, Frederick Schauer : Leading Cases in Constitutional Law, A Compact Casebook for a Short Course (American Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Leading Cases in Constitutional Law, A Compact Casebook for a Short Course (American Casebook Series):

0 of 0 people found the following review helpful. Further there are no "questions and notes" sections like typical law school booksBy CustomerThe way this book is edited makes a complicated subject far harder to understand. Because it is abbreviated, many of the case's facts are unreasonably shorted making the Court's analysis very difficult to

understand. Further there are no "questions and notes" sections like typical law school books. This again makes analysis of the cases more difficult than necessary. Anyone can search for cases, the purpose of a textbook should be to instruct and pose questions for better understanding than just dry reading of important constitutional law cases. Any professor contemplating using this book should seriously reconsider. 0 of 0 people found the following review helpful. You'll need a supplement for this one. By Nashville Wordsmith This book may make you want to claw out your eyeballs. Not only is the font poorly chosen, the leading and font size make the cases hard to read. No white space anywhere, and neither is there any delineation of important concepts (no bolding, italics, etc.; only case names get special treatment: all caps.) Further, the so-called important cases (ones that give important tests or concepts) sometimes get only a fleeting mention. Bottom line: unless your professor is amazing, you are going to need a supplement. In fact, just stick to the supplement. Most of my classmates quit reading this book after the first week. I kept at it (mostly skimming), but definitely relied on supplements, as the book gives little to no commentary on the cases themselves or the topics to which the cases relate. 0 of 0 people found the following review helpful. Quick Review By cristina beckles The book came in a timely fashion and was in great condition! Excluding a sticker on the front that stated it was the teacher's edition (which i don't believe it was), the book was pretty much brand new.

An annually-revised paperback designed for a single-semester course on constitutional law, this book is roughly half the length of many hardcover casebooks. The six renowned authors, now including Michael Dorf and Frederick Schauer, are co-editors of a long-time favorite teaching book, the much larger *Constitutional Law: Cases, Comments Questions*, 12th edition. "Leading Cases," which is a stripped-down version of that book, contains "the essentials" for teaching a basic course in constitutional law. Because the organization of the compact book parallels that of the much lengthier Choper - Fallon - Kamisar - Shiffrin - Dorf - Schauer casebook, which contains extensive Notes Questions, the latter can serve as a "resource" book for instructors teaching from the paperback. Subsequent editions of *Leading Cases* will continue to be published every summer for classroom use in the fall and will include all the significant cases handed down during the most recent Supreme Court Term.
