Stephen Elias, Susan Levinkind, Janet Portman : LEGAL RESEARCH: How to Find Understand the Law (6th ed.) before purchasing it in order to gage whether or not it would be worth my time, and all praised LEGAL RESEARCH: How to Find Understand the Law (6th ed.):

It is clear and succinct, but not at all lacking. Unfortunately, the only way to get good at legal research is do it . . . often. Like any skill, it takes practice to refine your techniques. This well-done volume is a great place to start. I really like that it takes care to explain the "iffy-ness" of the internet as a legal research resource. The book is written for laypeople interested in doing their own legal legwork. However, I recommend the book to law students and young lawyers. When you're in law school, neck-deep in substantive law and theory, legal research (your most invaluable skill) and clinical practice take a back seat. This is a great refresher

Perfect for anyone.By TimcpGreat book, Nolo creates some of the best, if not the best, straight talk Legal books. Easy read, the title of their books don't call you a Dummy either, and they're written just as well as any of those types of books. Highly recommended for anyone interested in Legal Research.

"Legal Research provides a systematic research method to find answers and get results; whether you're looking for background information, seeking a specific regulation or case; or searching for a complete answer to a complex legal question. Learn how to read and understand statutes, regulations and cases; check your research to make sure it's up to date, then organize your research results into a memorandum of law."--BOOK JACKET. "Or ... skip the library and go to the Net! You can tackle many research tasks by going online. With the seventh edition of Legal Research, Nolo shows you how to use the Web to find statutes, cases, background information and answers to specific legal questions."--BOOK JACKET.

.com If you take it step by step, the United States legal system is not nearly as intimidating as it is reputed to be. With a little expert guidance from a couple of attorneys (Stephen Elias and Susan Levinkind), you can learn what's in a law library and how to use it, how to seek and understand statutes, regulations, and cases, how to explore online resources, practice your legal skills in the library, and even write a reputable legal memorandum. It's not as easy nor as immediately gratifying as buying an ice-cream cone, but with a modicum of patience, dedication and average smarts, you can research and understand the law without years of legal training and without emptying your bank account onto some lawyer's shiny desk. The text is approachable and easy to read. The authors' sensible approach takes the fear out of entering a law library, reassuring you that you needn't be a lawyer to be there and that the librarians are generally eager to please. By helping you formulate your legal questions (is the issue federal or state, civil or criminal, procedural or substantive?), narrowing your focus through legal indexes, and pursuing the appropriate resources, statutory laws, and relevant cases, the authors bring clarity and structure to the task. Nolo Press is famous for stripping the law of its daunting armor and making it accessible to the interested layperson. This guide to legal research is up to the usual high Nolo Press standards. It's a great boon to those who want to check out the law for themselves. -- Stephanie Gold Getting around the law library can be easy if you just know where to look-and Legal Research the place to begin. -- Library Journal This book has a valid and honored place on the shelves of both novice and practiced legal researchers. -- Legal Research Quarterly This book remains the best single introduction...to the mysterious world of legal research. -- Robert C. Berring, Law Librarian, University of California, Berkeley About the Author Stephen R. Elias is an attorney and associate publisher at Nolo.com. He is the author of many Nolo titles, including: How to File for Chapter 7 Bankruptcy, Trademark: Legal Care For Your Business and Product Name, Legal Research: How to Find and Understand the Law, and Nolo's Pocket Guide to Family Law. Steve has been interviewed by most major media including The New York Times, The Wall Street Journal, Newsweek, Good Morning America, 20/20, Money Magazine and more. He received his law degree from Hastings College of Law and practiced law in California, New York and Vermont before joining Nolo in 1980. In recent years much of Steve's time at Nolo has been devoted to the fields of self-help legal software and online legal information. He is one of the original authors/designers of Nolo's bestselling WillMaker program, as well as the software version of Nolo's Patent It Yourself. Susan Levinkind graduated first in her class from Western New England College of Law in 1979. She practiced general law in Northhampton, Massachusetts until 1989; at which point she decided to move to California and return to her former career as a librarian. She is currently the Law Librarian at the Santa Clara County Municipal Court and teaches legal research to whomever will listen. Co-author of Legal Research: How to Find Understand the Law, Susan lives in Oakland, California.
