**From Hart Publishing : Legitimate Expectations in the Common Law World (Hart Studies in Comparative Public Law)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Legitimate Expectations in the Common Law World (Hart Studies in Comparative Public Law):

The recognition and enforcement of legitimate expectations by courts has been a striking feature of English law since *R v North and East Devon Health Authority; ex parte Coughlan* [2001] 3 QB 213. Although the substantive form of legitimate expectation adopted in *Coughlan* was quickly accepted by English courts and received a generally favourable response from public law scholars, the doctrine of that case has largely been rejected in other common law jurisdictions. The central principles of *Coughlan* have been rejected by courts outside the UK for a range of reasons, including an incompatibility with local constitutional doctrine, and because they mark an undesirable drift towards merits review. The sceptical and critical reception to *Coughlan* outside England is a striking contrast to the reception the case received within the UK. This book provides a detailed scholarly analysis of these issues and considers the doctrine of legitimate expectations, both in England and elsewhere in the common law world. (Series: Hart Studies in Comparative Public Law, Vol. 12) [Subject: Constitutional Administrative Law, Comparative Law]

About the Author Matthew Groves is Professor of Law at the Faculty of Law, Monash University.
