0 of 1 people found the following review helpful. InspiringBy phantomusI met the author of this book in 2000 and

haven't seen him since. I knew he was working on a book about Panama. This is not that book. I am a little biased in I know him to be a standup honest all American Guy. This Book covers mainly his adult life and the obstacles he faced, some failures he had, baseball dream quashed and a marriage, but overall he shares how his hard work has paid off in attaining his goals of higher education becoming an author, and a JAG. He shares his opinions on Politics and his views on America the land of opportunity vs. the have nots in other countries. If you have ever encountered a challenge and failed or wanted to read an inspiring story by a positive person here it is. I think this might be written by one of the few honest people practicing Law. Good Job Paul, Glad you are not delivering Pizza anymore!
