When you view the life of works of President Lincoln through the prism of the Holy Scriptures you get a much greater glimpse into the soul of the man. This short discourse on the subject was a must read in one sitting... I could not put it down. 4 of 4 people found the following review helpful. Lincoln's soul spirit

was saturated with God's word

This book reveals the soul of a great president. More importantly it reveals the source of the man's soul which is the Bible, GOD'S word. Too bad the leader's of today believe their too smart to learn from history.

A pleasant and quick read yet does not give much evidence of Lincoln's use of the Bible . This topic could be far more useful by making good use of scriptural quotes in Lincoln's public speeches or writing. nonetheless an interesting quick read about Lincoln's early life.

In a log cabin at Nolin's Creek, Hardin County, Kentucky, the boy Abraham Lincoln breathed the first breath of life. Hopes anchor hung on a slender string, if we are to measure by the child's home surroundings. But his birthplace possessed a soul; for a home with a good book in it has a soul. This book was the Bible. It mastered his manners, molded his mind, made mighty his manhood, and gave to America the matchless man. In the Bible he found the truth for the ills of men, the secret for the solution of life's perplexing problems, the boon for the best beaten path, the succor for the suffering, the calmest comforts for the dying, and the faithful friend.
