Professor John Birds, Ben Lynch, Simon Milnes : MacGillivray on Insurance Law before purchasing it in order to gage whether or not it would be worth my time, and all praised MacGillivray on Insurance Law:

MacGillivray on Insurance Law is an authoritative and trusted work among insurers, brokers, and practitioners. It provides comprehensive coverage of recent cases and developments, comparing English law with its Scottish, US and Commonwealth counterparts. The 13th edition comes at a key time, with a detailed review of the law on warranties, good faith, and misrepresentation in light of the Insurance Act 2015.
