Vladimir Grecic : Migration Law in Serbia before purchasing it in order to gage whether or not it would be worth my time, and all praised Migration Law in Serbia:

As migration and economic activities are often interlinked, the analysis pays particular attention to labour market access and regulation of self-employed activities for nonnationals. The book describes the status of such specific

categories of persons as students, researchers, temporary workers, and asylum seekers, as well as the position of family members, detailing applicable legislation and providing practical information on administrative procedures, sanctions, and legal remedies and guarantees. The impact of international human rights law and various bilateral and multilateral agreements is considered, along with the broader application of national and local law to non-citizens in such areas as family relations, labour, social security, and education.
