From Berghahn Books : Migration Past, Migration Future: Germany and the United States (Migration Refugees) before purchasing it in order to gage whether or not it would be worth my time, and all praised Migration Past, Migration Future: Germany and the United States (Migration Refugees):

The United States is an immigrant country. Germany is not. This volume shatters this widely held myth and reveals the remarkable similarities (as well as the differences) between the two countries. Essays by leading German and American historians and demographers describe how these two countries have become to have the largest number of immigrants among advanced industrial countries, how their conceptions of citizenship and nationality differ, and how their ethnic compositions are likely to be transformed in the next century as a consequence of migration, fertility trends, citizenship and naturalization laws, and public attitudes.

"... useful and readable summaries of research completed in the last two decades." *Journal of Ethnic and Migration Studies*
