Ronald Rotunda : Modern Constitutional Law: Cases and Notes, Unabridged (American Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Modern Constitutional Law: Cases and Notes, Unabridged (American Casebook Series):

0 of 0 people found the following review helpful. Not the worst textbookBy haleylI don't understand how were supposed to accurately review textbooks we were forced to buy against our will for classes and spend all of our free time reading. I like that the Constitution is printed right in front of the book and it's not god awful boring but I wouldn't choose to read this book in my free time. As far as textbooks go this one isn't the worst one I've had.

Since the first publication of Modern Constitutional Law a third of a century ago, it has continued to be one of the best sellers in a very competitive market. Over the years, many law professors have adopted this user-friendly casebook - which is no surprise, given the rave reviews that this book has enjoyed. For example, Professor Thomas E. Baker stated that he has "been so loyal to the Rotunda brand name over the years," because it "remarkabl[y]" manages "to include all the important cases yet preserves a fuller set of opinions to guarantee 'thoughtful classroom discussion. This Eleventh Edition incorporates the many changes in Constitutional law, such as new limits on the Commerce Clause and Spending Power, the Second Amendment, expanded Free Speech protections, and new limits on affirmative action, the President's executive power, and federal power to enforce voting rights. In addition to the 11th Edition Standard Version, Rotunda now offers an Abridged Edition, particularly appropriate for those professors offering a shorter course. This abridged version covers most of topics of the expanded version but does not include topics that a shorter course would not normally include.
