Gail Radford : Modern Housing for America: Policy Struggles in the New Deal Era (Historical Studies of Urban America) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Modern Housing for America: Policy Struggles in the New Deal Era (Historical Studies of Urban America):

0 of 0 people found the following review helpful. MODERN HOUSING FOR CHICAGO By the Harriet Ann This book was required reading for my Master's course in Low-Income housing. The title should be changed, to "Modern Housing in Chicago". Using the word America is misleading since it does not cover all of the country. G. Radford is very competent in her research. Living on the Pacific coast I sincerely did not find any thing in depth on the subject. (Book was new, excellent condition and delivery service!) 0 of 0 people found the following review helpful. This book was helpful By Donald L. Cox We were working on a National Register of Historic Places nomination for a public housing project and this book was very useful.

In an era when many decry the failures of federal housing programs, this book introduces us to appealing but largely forgotten alternatives that existed when federal policies were first defined in the New Deal. Led by Catherine Bauer, supporters of the modern housing initiative argued that government should emphasize non-commercial development of imaginatively designed compact neighborhoods with extensive parks and social services. The book explores the question of how Americans might have responded to this option through case studies of experimental developments in Philadelphia and New York. While defeated during the 1930s, modern housing ideas suggest a variety of design and financial strategies that could contribute to solving the housing problems of our own time.

About the Author Gail Radford is associate professor of history at the University at Buffalo.
