Thomas J. Bellairs, James Helsel, James Goldsmith : Modern Real Estate Practice in Pennsylvania before purchasing it in order to gage whether or not it would be worth my time, and all praised Modern Real Estate Practice in Pennsylvania:

This seller apparently thinks all that matters is the lack of tearing or cleanliness of the pages. As any student can tell you, those are of secondary importance. Each chapter in this book has a end-cap summary and a test. The previous owner of this book had darkly penciled in all of the correct answers. I had to circle the other 3 options in each test in order to prevent myself from knowing the answer before I knew the question. Also, writing everywhere, highlighting everywhere. With disclosure about the excessive

highlighting and penciling, selling this product would be fair, but since the seller claimed it was in "excellent" condition, I am completely unsatisfied with the purchase, even with its low price.0 of 0 people found the following review helpful. ConditionBy LaurenI bought this book for my husband for school. It was cheap but said very good condition. When it arrived it was nowhere near good condition. Pages were bent and torn, it was highlighted and written in, it had things stuffed in pages throughout the book. I was very dissapointed with the condition of this book.0 of 0 people found the following review helpful. Long, but required, but straight forward.By A. SpencerIf you are going for your realtors license in Pennsylvania this book is one of the required texts. It maybe think, but don't let that put you off. The language is easy to understand, and what you don't understand, your instructor for your pre licensing can explain it to you.
