Law (Studies in European Law and Integration):

Over recent years, European Community (EC) competition law has come under fire. Continued criticism of all aspects of the means by which EC competition law is enforced has brought to light the ineffectiveness of the system. Consequently, the European Commission has responded by issuing the White Paper on Modernisation, which sets out its vision on the future of EC competition law.

Wesselings book provides timely food for thought. Wesseling has a more radical vision of modernisation than the Commission and he has produced an excellent, thought-provoking and stimulating book.
