Jeffrey W. Bennett : National Industrial Security Program Operating Manual (NISPOM) before purchasing it in order to gage whether or not it would be worth my time, and all praised National Industrial Security Program Operating Manual (NISPOM):

New with Change 2, May 18, 2016. The National Industrial Security Program Operating Manual (NISPOM) is the Department of Defense's instruction to contractors of how to protect classified information. This printing of the NISPOM includes the latest from the Defense Security Services to include an Index and Industrial Security Letters. The NISPOM addresses a cleared contractor's responsibilities including: Security Clearances, Required Training and Briefings, Classification and Markings, Safeguarding Classified Information, Visits and Meetings, Subcontracting,

Information System Security, Special Requirements, International Security Requirements and much more. It's not just for the FSO. Every Cleared employee should have a copy. Red Bike Publishing has published a book store quality NISPOM. A sleek new professionally designed cover adorns our product. Red Bike Publishing has added a professional edge to the NISPOM for about the same as it costs to print your own. Our publisher quality books have crisp writing that is refreshing to read. The Industrial Security Professional (ISP) Certification is based primarily on NISPOM. The publisher also provides Red Bike Publishing's Unofficial Study Guide to ISP Certification-The Industrial Security Professional and DoD Security Clearance and Contracts Guidebook.

Long gone is my big and bulky 3 ring binder. This book (NISPOM) takes up a fraction of the room on your desk, and is portable enough to take to any security meeting. --Jackie Tippins, ISP About the Author This book is a product of the Department of Defense and is always the latest version in its original format. Jeffrey W. Bennett, ISP advises on national security. A teacher at heart, he is certified to protect classified information and has a master's in business administration. Jeff is a former Army officer, a member of the American Society of Industrial Security and a former chapter vice-chair of NCMS (Society of Industrial Security Professionals). He speaks, writes and provides products to help professionals better protect sensitive and classified information. ISP Certification-The Industrial Security Professional Exam Manual; provides security education and helps security specialists earn their certification. He is on contract to write Managing the Security of Classified Information and Contracts.
