Stephen Dycus, Arthur L. Berney, William C. Banks, Peter Raven-Hansen : National Security Law, Third Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised National Security Law, Third Edition:

3 of 3 people found the following review helpful. An excellent reference or teaching textBy CustomerI used the seond edition of this text in an Intelligence Law class and found it to be a thorough and broad study of the various topics in national security law.1 of 4 people found the following review helpful. Five StarsBy RonGreat book lots of knowledge in it

This timely casebook provides a complete exploration of both constitutional and domestic law issues of national security, blended with cases, notes, questions, and original materials. The best-selling casebook in the field, NATIONAL SECURITY LAW, Third Edition, is both current and comprehensive. Some of the effective features that earned the book its leading position include:| + a cohesive thematic framework that examines policy and the consequences surrounding American use of force, intelligence operations, and counterterrorism efforts + rich primary materials, such as judicial opinions, executive correspondence, statutes, and legislative history + penetrating hypothetical questions that prompt analysis of the actual issues faced by national security professionals + plentiful descriptive text to supply context and informative historical and background materials New material in the Third Edition is especially important in light of current national security issues: + a new Part III, devoted to terrorism and

transnational law enforcement, includes the original Osama bin Laden case, American-Arab Anti-Discrimination Committee v. Reno, and materials on consequence management + extensive coverage throughout the book of the terrorist attacks of September 11, 2001 with legal analysis of U.S. and international responses + U.S. military involvement in Columbia + U.S. and NATO activity in Kosovo
