Mark Warda, Diana Brodman Summers, Judge William H. Huss : Neighbor Vs. Neighbor: Over 400 Informative and Outrageous Cases of Neighbor Disputes (Homeowner's Rights) before purchasing it in order to gage whether or not it would be worth my time, and all praised Neighbor Vs. Neighbor: Over 400 Informative and Outrageous Cases of Neighbor Disputes (Homeowner's Rights):

0 of 0 people found the following review helpful. Interesting and Informational. By michael p rabb Interesting how Neighbor to Neighbor can get very bad, and long lasting. 5 of 7 people found the following review helpful. Interesting cases, but way out of the norm. By Randall Griffith I guess it's fascinating stuff to a lawyer (which is what the author is), but most of these cases are so off the wall and bizarre they are irrelevant to us plebes. 3 of 3 people found the following review helpful. Interesting Neighbor Law Cases. By Michael D. Zarum After reading another reviewer's comments on this book where he wrote, "these cases are so off the wall and bizarre they are irrelevant to us plebes" and ranked this book two out of five stars, I decided to write a few comments of different perspective. While I agree that many of the cases in the book are not ordinary cases, and may be off the wall, that is what makes this book so good. Many instances where neighbor disputes end up in court for resolution happen to end up in court because one of the neighbors is off the wall and acting bizarre and unreasonable and often the laws are not clear in these areas. The book also has a section which discusses the history of airports and aviation as neighbors, and that is a topic that is not discussed in many books at a basic level, and it is also an area of law of growing debate affecting most every community within the vicinity of an airport, not only nationally but internationally, especially as air traffic grows, so do the adverse environmental effects to neighborhoods and neighbors. This book gives a good summary of the history of cases in that area. And the book is quite amusing and entertaining to read. Michael

Courthouses are filled with varied and emotional stories of people's lives, from tragic accidents to silly wars of revenge. This book collects hundreds of these stories--from every state in the Union and from England--to explain the legal rights of neighbors. Neighbor vs. Neighbor explains how constitutional rights, zoning and regulatory laws and private restrictions affect neighbor disputes. Forty-three areas of neighbor disputes are examined, including: Noise Boundaries Animals Odors Airports Trespass Neighbor vs. Neighbor combines the law with humor, including such stories as: The girl so beautiful that 300 people gathered in the street The Christmas lights that were ordered shut off The car horn that killed 720 chickens The man awarded \$100,000 when his wife ran off The woman who played music to describe her neighbors The roof that delivered 300 inches of snow a year on the neighbor The person breeding horses in front of his neighbor's window...and many more!
