Lawrence Berezin This is an absolutely terrific reference guide to NYC parking rules and regulations written by an expert, who really cares about helping the driving public. It is easier to navigate the nine circles of suffering in Dante's Inferno, than the mean streets of NYC without being stung by a parking ticket warrior's scanner. The silent beam of light costs you from \$35 to \$165, not counting parking tickets for parking in handicap zones, which cost significantly more. From an economic point of view, it is a "no brainer." You can purchase this book for less than \$12.00. One summons for parking in a "No Standing-Bus Stop" zone parts you and your money to the tune of \$115. Here are some of the topics addressed by Mr. Camporeale in a clear, concise, easy to understand manner: 1. Parking on a street with a missing or defaced regulation sign 2. Broken parking meters 3. The basis of a defective ticket 4. What to do if you're towed 5. What constitutes double parking 6. Alternate side parking rules 7. The three NO's 8. Top 10 tips about how to win a dismissal of a defective parking ticket 9. ...And many more Here are some of the questions Mr. Camporeale answers in his reference guide: 1. Can I win a dismissal of my NYC parking ticket if my vehicle's body type, plate number, color, or the place of occurrence of my violation is misdescribed? 2. Can I park alongside a broken fire hydrant? 3. Can I park at a broken meter? 4. What if the parking sign regulating my space is defaced? 5. What if a parking sign is missing? 6. How do I present my defense for a missing or defaced sign? 7. Can I ever stop, stand or park alongside a fire hydrant? 8. Is there a defense to a parking ticket for No Standing-Bus Stop? 9. ...and much, much more The NYC driving public needs friends like Mr. Camporeale, who is willing to share his extensive knowledge and insights about the arcane NYC parking laws. Ignorance of the parking law is no excuse for a parking violation; especially when the "Parking Survival Guide" is available. Why am I qualified to offer my opinion? I am the Chief Operations Officer for a company that fights NYC parking tickets; I blog extensively about parking tickets for my company, and Fox 5 News NYC (one of the most viewed blogs); and I am an attorney with 33 years experience. This reference guide never leaves my side.

The NYC Motorists Parking Survival Guide, a reference book, based on current NYC parking laws and regulations, reveals the secrets of what motorists need to know in order to avoid and successfully defend against parking tickets.
