This way you don't have to ask your attorney dumb questions.0 of 1 people found the following review helpful. Definitely Not a Replacement for RuttersBy Paul - CustomerBought as a lightweight desk reference so I wouldn't have to go the Rutters Civil Procedure Before Trial series. Well, that was an idea that crashed on the shores of reality. It really is very simple in analysis. I'd go as far as suggest it is black letter in analysis. If you have an online database to access, it works better than this book.If you don't have Rutter's and can't afford the series, this book is a basic primer. I think I have opened it 7-8 times since purchasing nearly 8 months ago. Back to paying for the updates re Rutters!0 of 0 people found the following review helpful. Best single pretrial book I

have found for law school. By Houston Gray. This is better than any civil pretrial textbook you will find. I used this throughout law school and not only aced all those classes but seriously impressed my internships because I could come up with answers without them having to show me where to find them. I have multiple copies, which the only reason I'm selling this.

Chapter 1. General Concepts 1-A. Introduction to California Civil Procedure 1-B. Papers, Forms, Declarations Affidavits 1-C. Pleading Practice 1-D. Law Motion Practice 1-E. Ex Parte Practice 1-F.
