Stephen W. Baskerville : Of Laws and Limitations: An Intellectual Portrait of Louis Dembitz Brandeis before purchasing it in order to gage whether or not it would be worth my time, and all praised Of Laws and Limitations: An Intellectual Portrait of Louis Dembitz Brandeis:

The last twenty years have witnessed a succession of excellent biographies that have done much to preserve Louis Dembitz Brandeis from obscurity. But for even the best of their authors, recounting the man's activities as a lawyer, reformer, and Zionist leader has tended to take precedence over delineating the themes and tracing the evolution of his thinking. Of Laws and Limitations seeks to redress the balance. Although the key events of his life and career provide the connecting narrative strands of the work, its main emphasis is on the development of his social, economic, and political ideas, with particular attention being paid to the central roles that law and an awareness of human limitations played within his broader conceptual framework.
