**William O. Douglas : Of Men and Mountains: The Classic Memoir of Wilderness Adventure** before purchasing it in order to gage whether or not it would be worth my time, and all praised Of Men and Mountains: The Classic Memoir of Wilderness Adventure:

0 of 0 people found the following review helpful. if you like edward abbey you'll like this. inspiring!By L. Greenvery inspiring to see what this young man did with his disability! if you like edward abbey's writing you'll love this.

beautifully written with great descriptions of mountain flowers, wildlife, and adventure!5 of 6 people found the following review helpful. Terrible reproduction of a classic book!By O LeeI absolutely love this book, in its classic form. But this reproduction of it is awful. It is a cheap imitation of the original without much care apparently having gone into it. Specifically, there are many pages with only 2/3 printing on them before it moves on to the next page (and I'm not talking about the end of a chapter!). It does not include the endpaper maps that came in the original which are EXTREMELY valuable to look at as the author talks about his hikes and fishing treks throughout the Cascade and Wallowa Mountains. There is a picture of the author in the original that is not included here either. Worst of all, it looks as though every page of this reprint is simply a photocopy of the original. And a bad photocopy at that. It looks like a copy of a copy of a copy in places with pieces of letters missing or misshapen. Unfortunately, I do not know if there is a better reproduction of this classic and enjoyable book, but I would stay away from this reprint.0 of 0 people found the following review helpful. Four StarsBy Allen BentA good read and some interesting history.

A book of personal adventure and discovery: an account of the way Douglas and other men managed to find a richer life in the mountains.

"Highly interesting and rewarding."--The New York Times
