ExcellentBy macolemanThis is timeless narrative of a boy in the woods...it is to all of us, male and female who play in the mountains and fish these streams. It is for all who never cease to wonder at the awesomeness of the natural world!2 of 2 people found the following review helpful. A Last Century GiantBy greydogMy Dad read this to my bother and I as a kid and I have recently returned to it.Douglas grew up near Yakima, WA and as a teen determined that rigorous treks in the back country would aid in strengthening his weak legs.He and his brother hitched and hiked much of the eastern Central Cascades including the Goat Rocks and his beloved Bumping Lake. Carrying little save blanket rolls, flour and beans--they anticipated current "light hiking" trends by a century. This was pre- WW I!Douglas' passion for the high country continued throughout a long life and it is clear that his enthusiasm and vision was a seminal influence in getting several wilderness areas established in the Cascades and the Eagle Cap in the Wallowas.The values that he found tramping high divides clearly informed his decision to ride the rails to Columbia for law school and underpinned his progressive political work in the Roosevelt Administration and on the Supreme Court.Douglas is an American original and if you love boot leather, pack strings and camp fire characters, read him.1 of 1 people found the following review helpful. Better then I expectedBy CustomerSo awesome to experience the Cascades and Wallowas through the eyes of a young man a hundred years ago. And benefit from the wisdom of William O Douglas.
