Lisa J. Sotto : Privacy Data Security Law Deskbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Privacy Data Security Law Deskbook:

1 of 1 people found the following review helpful. Very comprehensive, excellent referencesBy InfoSec ProfessionalThis "book" was perfect for me when trying to understand the various state and federal infosec laws. It explained a lot, giving background and context to many previously confusing topics. And that was just a tiny portion of what the entire book has, I haven't even gotten to the Privacy info, which is the vast majority of the book. If I were to judge based just on the Security info, this is an awesome resource.
