From Hart Publishing : Public Procurement Law: Damages as an Effective Remedy before purchasing it in order to gauge whether or not it would be worth my time, and all praised Public Procurement Law: Damages as an Effective Remedy:

Public procurement represents more than 15% of European GDP and is one of the fastest growing sectors of the European economy. Public procurement law is also fast-growing, not least in the area of remedies for breach of

procurement rules. The European directive of December 11, 2007 amending Council Directives 89/665/EEC and 92/13/EEC has reaffirmed the importance of damages as a tool to enforce the proper award of public contracts, but has left the exact architecture of the damages remedy in the hands of the Member States. This book offers an overview of damages liability which is inclusive, coherent, and practical, covering the relevant law and jurisprudence from a number of countries across Europe and further afield. The volume's contributors are high-profile and authoritative commentators on public procurement law, including policy-makers, judges, academics, and practitioners.

About the Author Duncan Fairgrieve is Senior Fellow in Comparative Law and Director of the Tort Law Centre at the British Institute of International and Comparative Law, London, and practises as a barrister at 1 Crown Office Row. Francois Lichere is Professor of Law at the University of Aix-Marseille, Aix-en-Provence, France and Counsel to law firms.
