David Brock : Real Anita Hill before purchasing it in order to gage whether or not it would be worth my time, and all praised Real Anita Hill:

0 of 0 people found the following review helpful. Three Stars By bomberas advertised 19 of 32 people found the following review helpful. Too Bad You Can't Give Minus Stars By Ted Coulter Well, Brock finally came out of the wood pile and revealed the truth about his lies. That's right, he admitted in a recent interview that he played fast and loose with the truth, and that the facts about Clarence Thomas actually buying pornography, sexually harassing Hill and everything else he lied about. So, to all of those who read his book and believed in their hearts that the truth was

contained in its pages - SORRY! "David Brock has recanted. This recovering hit man confesses in an upcoming Talk magazine article and in a new book that he was on a search-and-destroy-Anita mission. He says he printed charges he knew were false, ``dumping virtually every derogatory--and often contradictory--allegation... collected on Hill into the vituperative mix." He falsely trashed evidence that Thomas had been a good customer of porno videos and falsely trashed Hill's supporters. So do we say, ``I told you so" to those who believed what they read? Do we tell the man from Santa Fe whose recent review on .com calls Brock's book ``solidly researched" to try again? Do we recycle the copies of his out-of-print falsehoods?" (RECENT ARTICLE REVIEWING BROCK'S MOST RECENT PILE OF TRASH)10 of 20 people found the following review helpful. Open Mind, Strong Stomach?By Rees AchesonIf you have an open mind - and a strong stomach - I recommend reading The Real Anita Hill. However, in order to get a reasonably accurate picture, I recommend that you also read "Strange Justice" (ISBN 0-395-63318-4). The combination offer great insight into, not only what happened in 1991, but also of the events since. The combination goes a long way toward explaining the antagonism between the the political parties as well as how it is that they are able to justify their tactics. And also why the make-up of the Federal Courts have been such a priority for the Republican party. Recently the subject has become more pertinent now that Republicans can again make nominations to the Federal Courts. Things are sure to heat up in this area and these two books help explain why.

Brock's thorough investigation of the evidence in the Thomas-Hill hearings concluded that there was no reason to believe Anita Hill's accusations of sexual harassment against Clarence Thomas. Brock's book--a national sensation which landed on the New York Times bestseller list--is the definitive rebuttal of Hill's charges.
