**From Routledge : Religion and Equality: Law in Conflict (ICLARS Series on Law and Religion)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Religion and Equality: Law in Conflict (ICLARS Series on Law and Religion):

This volume presents an analysis of controversial events and issues shaping a rapidly changing international legal, political, and social landscape. Leading scholars and experts in law, religious studies and international relations,

thoughtfully consider issues and tensions arising in contemporary debates over religion and equality in many parts of the world. The book is in two parts. The first section focuses on the anti-discrimination dimension of religious freedom norms, examining the developing law on equality and human rights and how it operates at international and national levels. The second section provides a series of case studies exploring the contemporary issue of same-sex marriage and how it affects religious groups and believers. This collection will be of interest to academics and scholars of law, religious studies, political science, and sociology, as well as policymakers and legal practitioners.
