A Must ReadBy Jack MagneRepeal ObamaCare, by Jody Long is a MUST read if you would like to be thoroughly informed on a subject that could affect all of us in the most profound ways. Long, an attorney, has all the tools, and has painstakingly researched this complicated issue for us all.This work is not cleverly nuanced or subtle in tone. It is a straight-forward, hard-hitting, honest assessment of how this bill got

passed, and how it may damage our families and our Nation if it is not repealed. Fixing it is not an option- just as trying to repair a structure built on weak and shifting sand is futile. Jody Long does not disappoint as she also provides a solution- a roadmap to repeal. ObamaCare, seemingly born of deceit and a need to control our lives has been portrayed by its proponents as noble and compassionate: " Villainy has many faces; but none so villainous as the mask of virtue" We don't have to take this. It is time to do something about this. Jody Long has shown us the way. 0 of 0 people found the following review helpful. I loved it. By Roses It was a super book! The next best thing to taking a college course on how to abolish this monstrosity.

Repeal ObamaCare is a book that talks about issues pertaining to passage and implementation of the HR 3950, the Affordable Patient Care Act. This includes legal issues of how it was passed, implementing Obamacare, how it affects people and businesses. There is a section on guns, abortion/contraception, and RFID chips, and lastly I talk about solutions that we can use as a community and as a state for a viable health care solution. What started as an informational paper blossomed into a book. I read all 906 pages of Obamacare and condensed over 700 pages of articles and notes collected over a period of 4 years. What I didn't realize was that the information from media had all the answers, but it was so spread out that it is difficult to grasp what the legislation is all about. Here is a comprehensive book with most of the issues in one place. Every American needs to read this book in order to make an informed choice at voting time.

About the Author I have been an attorney for almost 20 years working in the areas of family law, business law, dispute resolution, and criminal law. I am licensed in Washington State, Louisiana, New Mexico and the Navajo Nation. In New Mexico, I was prosecutor working on the first pilot project between the state, county, city, and Navajo Nation in a DUI taskforce. This is my third book. I also wrote From Soul to Soulmate, Bridges from the Near-Death Experience Wisdom. Last week my second book came out called God's Fingerprints: Impressions of Near Death Experiences.
