From Hart Publishing : Rights and Private Law before purchasing it in order to gage whether or not it would be worth my time, and all praised Rights and Private Law:

The notion of rights is foundational to private law. What is distinctive about private law is that it recognizes and gives effect to the rights that individuals have against other individuals. In recent years, a strand of thinking has developed in private law which has come to be known as 'rights-based' analysis. This analysis seeks to develop an understanding of private law obligations, which is driven by the recognition of the rights we have against each other rather than by other influences on private law, such as the pursuit of community welfare goals. A rights-based understanding of private law sees it as guided primarily or exclusively by notions of interpersonal morality. Notions of rights are also assuming greater importance in private law in other respects. Human rights instruments are having an increasing influence on private law doctrines. In the law of unjust enrichment, an important debate has recently begun on the relationship between restitution of rights and restitution of value. This collection makes a significant contribution to the debate about the role of rights in private law. It includes essays by prestigious scholars addressing fundamental questions about rights in private law as a whole, and within particular doctrines and fields of private law. The collection includes both advocates and critics of rights-based approaches and provides a thorough and well-balanced analysis of the topic.

...a very rich and rewarding collection of 21 high-quality essays... which makes an important contribution to private law scholarship. (Stephen Watterson *Restitution Law*) If one is interested in the latest in private law theory in the corrective justice vein, this book is a must ... *Rights and Private Law* is a powerful anthology about how rights-based thinking is influencing one prevalent strand of private law theory. (Erik S Knutsen *Canadian Business Law Journal*)...this is a stimulating collection of high quality work. (Sandy Steel *Cambridge Law Journal*, Volume 73(2))

About the Author Donal Nolan is the Porjes Foundation Fellow and Tutor in Law at Worcester College, University of Oxford. Andrew Robertson is a Professor of Law at the University of Melbourne.
