John Coffee Jr, Hillary Sale : Securities Regulation, 12th (University Casebook) (University Casebook Series)
before purchasing it in order to gauge whether or not it would be worth my time, and all praised Securities Regulation, 12th (University Casebook) (University Casebook Series):

This casebook provides the tools for the in-depth study of the law of securities regulation. This edition has been

revised to recognize and address the issues underlying the current financial crisis, including the problems associated with asset-backed securitizations, the credit rating agencies, and the collapse of the investment banks. Topics covered include the Dodd-Frank Act, the competitiveness of the U.S. capital markets, and the effect of globalization on the world's security markets. It includes recent Supreme Court cases, a completely revised chapter on international securities enforcement, and updated coverage of SEC enforcement actions, as well as state securities law, international issues, and the regulation of investment companies.
