Thanks for the great deal and awesome book!0 of 2 people found the following review helpful. Just like newBy BigalThe book was even better than advertised. There was not one mark in it. It looked as if I bought it from my over priced school book store. Delivery was extremely fast!!2 of 2 people found the following

review helpful. Organized; useful examples problems throughoutBy endsleighExcellent casebook. Organized, full of useful examples and hypos along the way. Full of good material on the economic legal underpinnings for the US regime of securities regulation.Helped that I took the course from one of the authors, of course. But I'd still highly recommend it.

This casebook seeks to make both securities markets and securities regulation accessible and manageable, helping students to master the basic principles and structure of securities regulation and enabling them to begin their careers as corporate lawyers with confidence.
