Stephen Choi, Adam Pritchard : Securities Regulation Statutory Supplement; 2014 (University Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Securities Regulation Statutory Supplement; 2014 (University Casebook Series):

0 of 0 people found the following review helpful. Needs better contents and headings for students and attention to mid-year updatesBy AndrewNeeded some kind of editorial headings to make it easier to use for students trying to familiarize themselves with the statutes and regs. Its contents and headings were absolutely minimal. Also should offer a downloadable (PDF) pocket part to account for changes in the regulations that occur throughout the year. Significant portions of this supplement were outdated by the time I was using it in early 2017 (still the 2016 school year).0 of 0

people found the following review helpful. It may not have every single statute, but it ...By CustomerIt may not have every single statute, but it does contain the most relevant. And compared to my class and professor's supplements, mine was the most accurate. For example, on the time frame allowed for road shows, the FAST ACT changed it from 20 to 15 days, this was done Dec 2016, and most supplements say that they are up to date with all laws ending Dec 31, 2016, but obviously not. This is the only supp that was, I will be sure to purchase other Choi/Pritchard corporate law supplements going forward just because of their up-to-date accuracy, Not worth a \$10 difference when it comes to a law final.0 of 0 people found the following review helpful. Five StarsBy Sadie FisherHelpful

This statutory supplement includes the most widely referenced statutory sections, rules, and forms, from the Securities Act of 1933, the Securities Exchange Act of 1934, the Sarbanes-Oxley Act and changes from the JOBS Act.
