Granted, based on the book alone I wouldn't think she was as good as I am at finding skips, but then, I wouldn't exactly publish half the stuff I've resorted to, so who knows, maybe she really is better than me. I know I learned a few things from reading her book. :)2 of 2 people

By Franquie Not a bad book, but I didn't find much information in it that was very secret either. Overall, not disappointed I bought it, but wasn't as good as I'd hoped either.
